1. Introduction

The FX Trading Tracker is a web-based platform for managing foreign exchange deal tickets across a multi-role operational workflow. It supports the full deal lifecycle from ticket creation through treasury processing, with audit logging, settlement proof management, and comprehensive reporting.

1.1 User Roles

Role	Access Level
Trader	Create deal tickets, upload client proofs, view own deals, generate reports
Treasury	Review and process deals (confirm/return), upload processor proofs, generate reports
Admin	Manage users, reference data, audit trail, report permissions, bulk imports
System Admin	Full admin access plus database reset, system exports, and database statistics

1.2 Key Concepts

Deal Ticket - An FX trade record containing client details, currencies, amounts, rates, and bank/crypto account information.

Settlement Proof - Documentary evidence (images or PDFs) of fund transfers uploaded by traders (client proofs) or treasury (processor proofs).

Reference Data - System-wide master data including FX clients, banks, currencies, counterparties, transaction types, and transfer types.

Counterparty - A PJL Group entity (e.g., CLSC, PJ, Verite) used instead of 'company' for FX Local, FX - Corporate Settlement, and FX-Intercompany transfers.

2. Getting Started

2.1 Logging In

Navigate to the application URL in your web browser. The Sign In page will display.

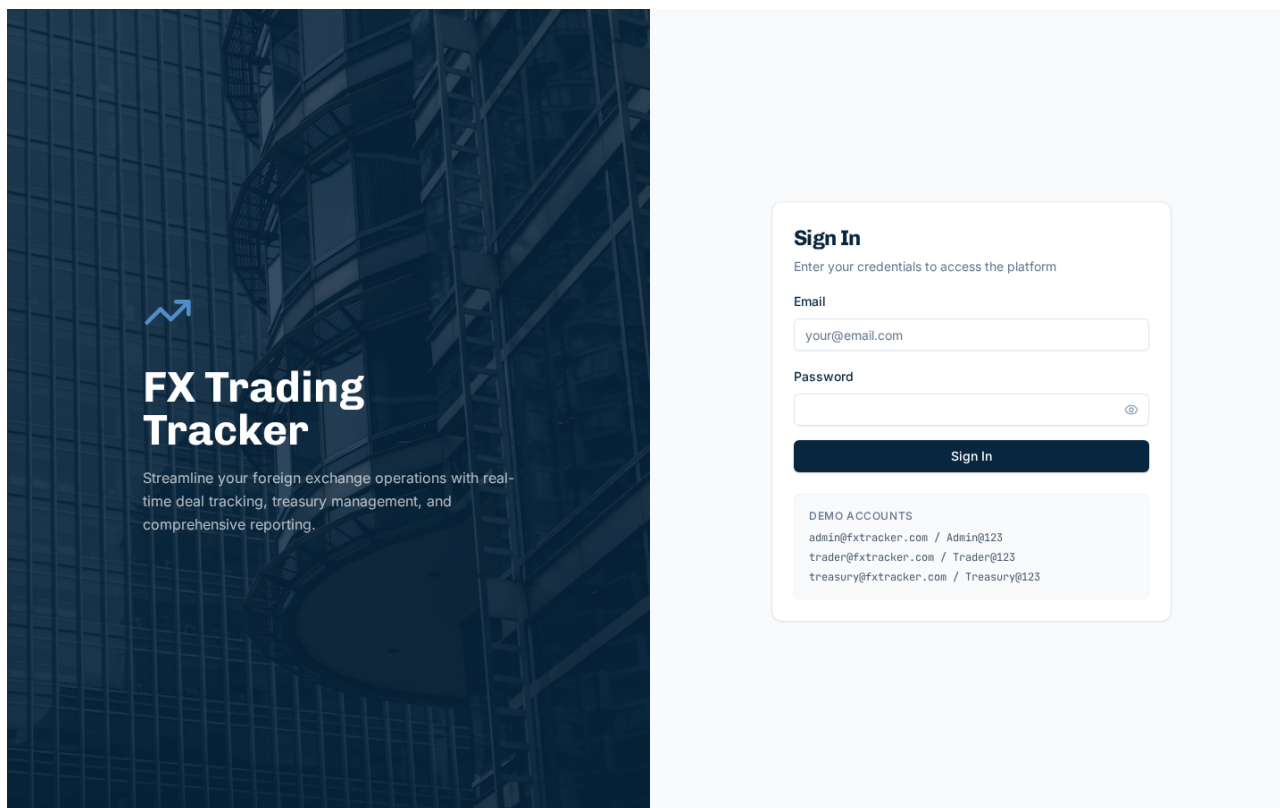

Figure 2.1 - Sign In page

Enter your Email and Password, then click Sign In. Upon successful authentication, you will be redirected to the Dashboard.

2.2 Navigation

The left sidebar provides navigation to all available pages based on your role. Traders see Dashboard, My Deals, New Deal, and Reports. Treasury sees Dashboard, Deal Queue, and Reports. Admins see Dashboard, Reference Data, Users, Transactions, Audit Trail, and Reports.

2.3 Changing Your Password

Click Change Password in the bottom-left sidebar. Enter your current password and new password (minimum 4 characters), then click Update Password.

3. Dashboard

The Dashboard provides an at-a-glance overview of trading activity with summary cards, volume charts, and status distribution.

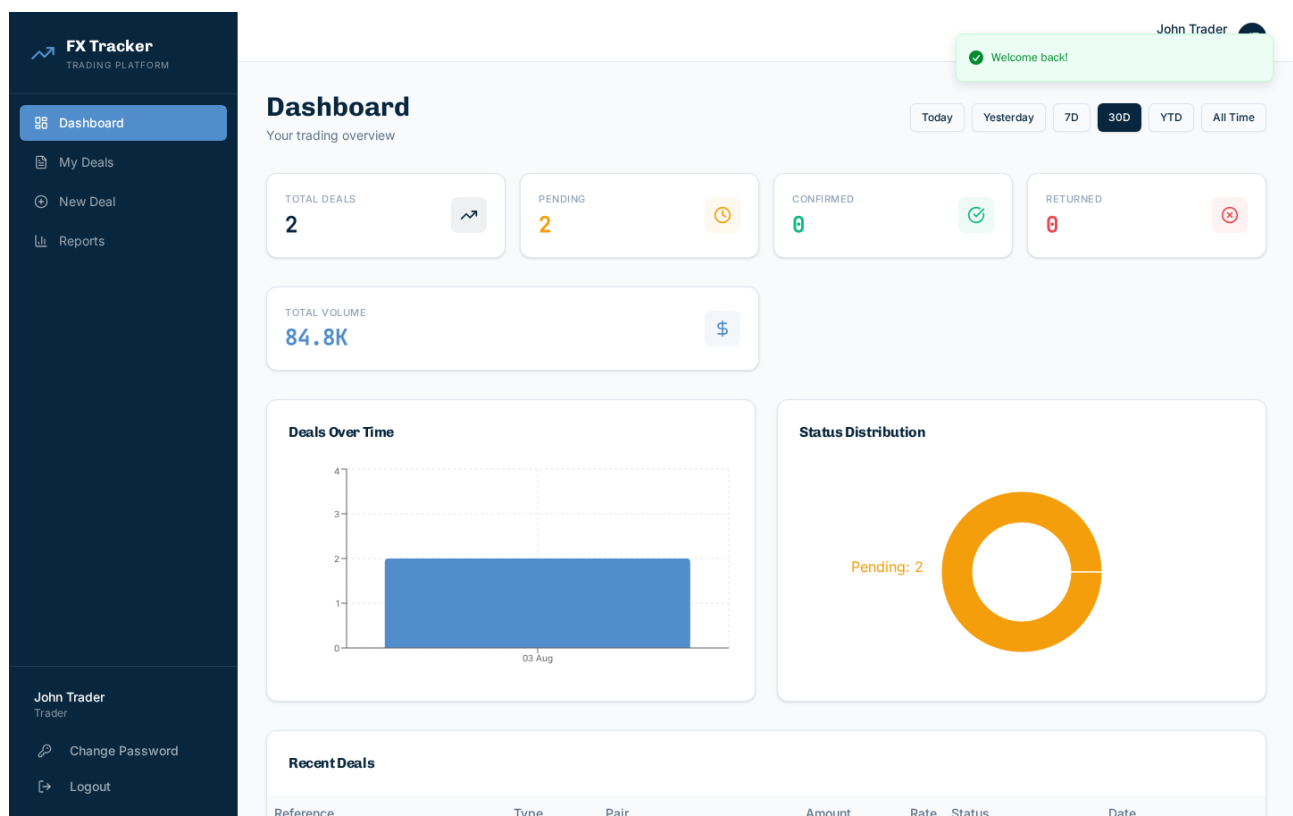

Figure 3.1 - Trader Dashboard

3.1 Summary Cards

The top row displays: Total Deals, Pending, Confirmed, Returned, and Total Volume for the selected period.

3.2 Date Range Filters

Use the date buttons in the top-right corner: Today, Yesterday, 7D, 30D, YTD, or All Time.

3.3 Charts

Deals Over Time (bar chart) and Status Distribution (doughnut chart) provide visual summaries.

Note: Traders see only their own deal data. Admins and Treasury see all deals.

4. My Deals (Trader)

The My Deals page is the primary workspace for traders to manage their deal tickets.

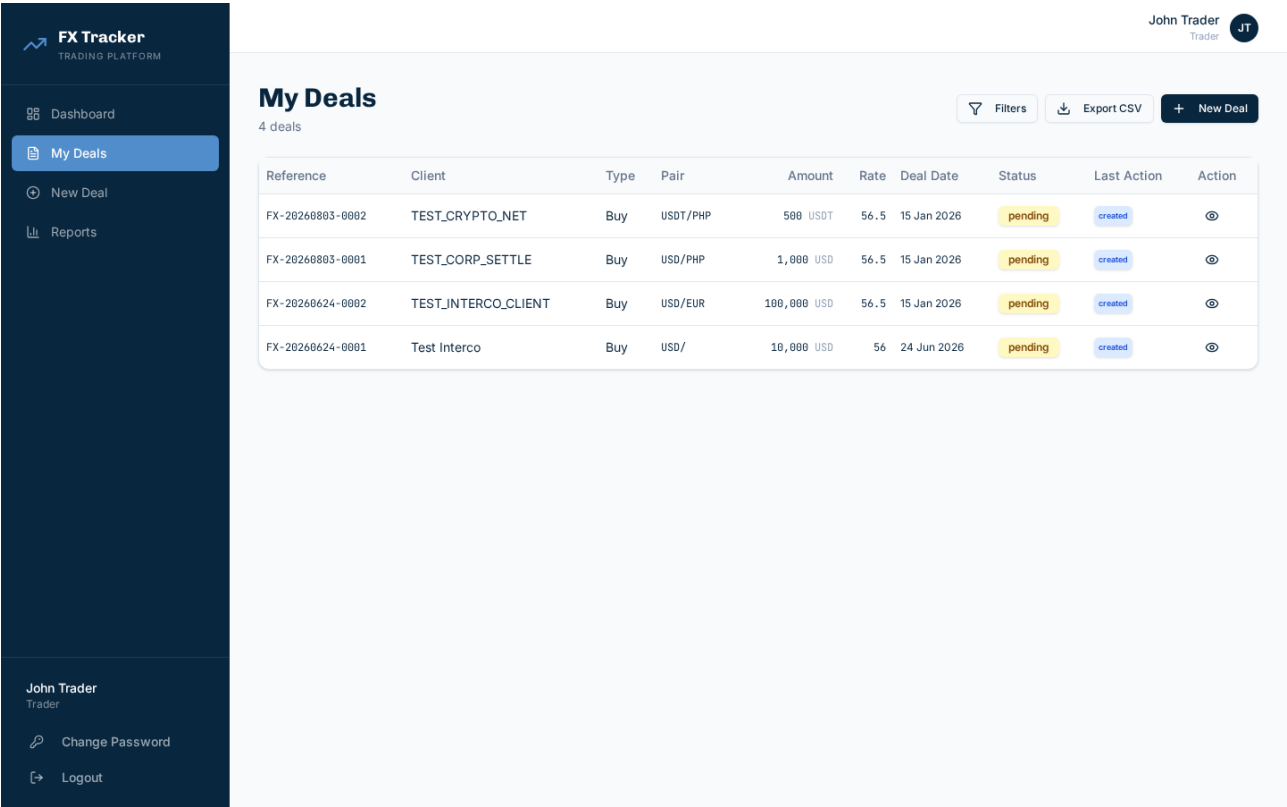

Figure 4.1 - My Deals list with Amount (currency label) and Last Action badges

4.1 Deal List Columns

Column	Description
Reference	Unique deal reference (e.g., FX-20260803-0001)
Client	Client/company name
Type	Transaction type (Buy or Sell)
Pair	Currency pair (e.g., USD/PHP)
Amount	Original currency amount with label (e.g., 1,000 USD)
Rate	Exchange rate
Deal Date	Date of the deal
Status	Current status badge (pending, confirmed, returned, cancelled)
Last Action	Most recent action badge from deal history

4.2 Filtering and Export

Click Filters to reveal filter controls (Status, Client, Currency, Date Range). Click Export CSV to download all visible deals as a CSV file.

4.3 Deal Detail Dialog

Click the eye icon on any deal row to open the full detail dialog.

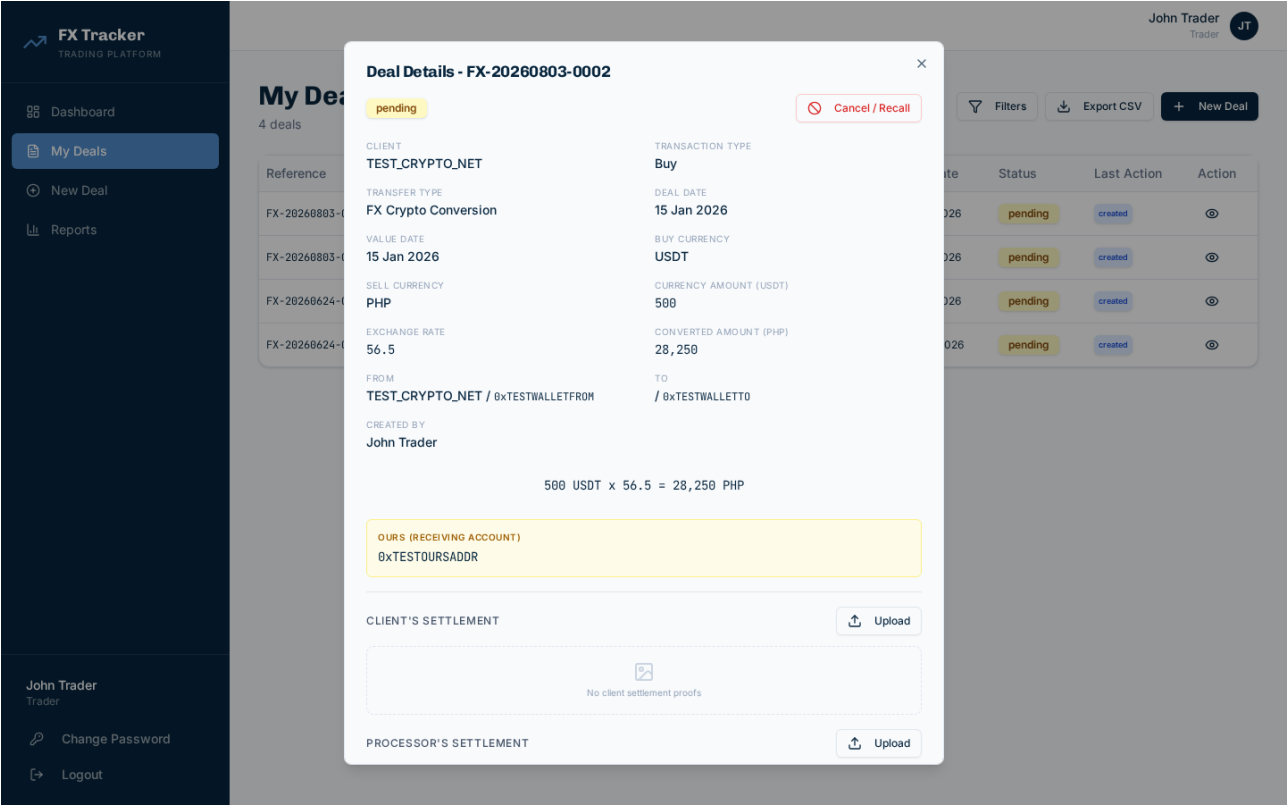

Figure 4.2 - Deal detail with conversion summary, Ours, and settlement proofs

The dialog shows all deal fields, currency conversion summary, bank/crypto account details, settlement proofs, and full deal history timeline.

4.4 Uploading Settlement Proofs

For pending or returned deals, click Upload under Client's Settlement in the detail dialog. Select image files (JPEG, PNG, WebP, GIF) or PDFs (max 10MB each).

Client settlement proofs are not applicable for FX Bank Deal transactions.

4.5 Cancelling a Deal

For pending deals only: open the detail dialog, click Cancel / Recall, enter a cancellation reason, and click Confirm Cancellation.

4.6 Editing a Returned Deal

When treasury returns a deal, a red alert shows the return remarks. Click Edit Deal to modify fields, then Save Changes or Save and Resubmit. Or click Resubmit to send as-is.

5. New Deal Ticket

Create a new FX trade deal ticket from the New Deal page.

Figure 5.1 - New Deal Ticket form

5.1 Deal Information

Field	Required	Description
Client Name	Yes	Free-text client name
Transaction Type	Yes	Buy or Sell
Transfer Type	Yes	See Appendix for all types
Deal Date	Yes	Date of the deal
Value Date	Yes	Settlement value date

5.2 Amounts and Currency

Field	Required	Description
Currency	Yes	Searchable dropdown (fiat, stablecoin, crypto)
Currency Amount	Yes	Principal amount in selected currency
Exchange Rate	Yes	FX conversion rate
Converted Amount	Auto	Calculated as Currency Amount x Rate

5.3 Source (From) and Destination (To)

Each section supports Bank or Crypto mode, toggled via the Bank/Crypto switch.

Bank Mode: Company or Counterparty (searchable) + Bank (searchable) + Account (searchable autocomplete showing account name and number).

Page 8

Crypto Mode: Company or Counterparty + Wallet Address + Network (required: SOLANA, ETHEREUM, or TRON).

5.4 Ours (Receiving Account)

Defines where the counterparty credits funds. Supports Bank/Crypto modes. For FX-Intercompany deals, two Ours sections appear: Selling Counterparty Ours and Buying Counterparty Ours.

5.5 Submitting

Fill all required fields, click Submit Deal Ticket, review the confirmation dialog, then click Confirm and Submit. The deal is assigned a unique reference and placed in pending status.

6. Deal Queue (Treasury)

The Deal Queue is the treasury team's workspace for reviewing and processing FX deals.

Reference	Client	Type	Pair	Amount	Rate	From Bank	To Bank	Deal Date	Last Action	Action
FX-20260803-0002	TEST_CRYPTQ_NET	Buy	USD/PHP	500 USD	56.5	-	-	15 Jan 2026	created	Review
FX-20260803-0001	TEST_CORP_SETTLE	Buy	USD/PHP	1,000 USD	56.5	BDO	BDO	15 Jan 2026	created	Review
FX-20260624-0002	TEST_INTERCO_CLIENT	Buy	USD/EUR	100,000 USD	56.5	JP Morgan Chase	JP Morgan Chase	15 Jan 2026	created	Review
FX-20260624-0001	Test Interco	Buy	USD/	10,000 USD	56	JPMC	Citi	24 Jun 2026	created	Review

Figure 6.1 - Treasury Deal Queue with Last Action column

6.1 Queue Tabs

Tab	Contents
Pending	Deals awaiting treasury review
Returned	Deals returned, awaiting trader correction
Processed	Confirmed and cancelled deals

6.2 Customizing Columns

Click the Columns button to show/hide individual columns (Reference, Client, Type, Pair, Amount, Rate, From Bank, To Bank, Deal Date, Status, Last Action).

6.3 Reviewing a Deal

Click Review on a pending deal. The review dialog shows complete deal details, client proofs (view-only for treasury), processor proofs (treasury can upload/manage), and deal history. Enter Treasury Remarks (required), then click Confirm (green) or Return (red).

6.4 Confirmation Requirements

At least one settlement proof (client or processor) must exist before a deal can be confirmed. The Confirm button is disabled when zero proofs are uploaded.

7. Reference Data Management (Admin)

Admins manage all system reference data from the Reference Data page.

The screenshot shows the 'Reference Data' page in the FX Tracker Admin interface. The left sidebar contains navigation links: Dashboard, Reference Data (selected), Users, Transactions, Audit Trail, and Reports. The top right shows 'System Admin Admin SA'. The main content area is titled 'Reference Data' with the subtitle 'Manage system reference data'. It features a tabbed interface with 'FX Client' selected, and other tabs for Banks, Counterparties, Transaction Types, Transfer Types, and Currencies. Above the table are buttons for 'Import CSV/Excel' and '+ Add New'. The table lists client entities with columns for Name, Code, Status, and Actions.

Name	Code	Status	Actions
Acme Corporation	ACME	Active	
GlobalTech Inc	GTECH	Active	
Pacific Trading Co	PACIFIC	Active	
Sterling Enterprises	STERL	Active	
Atlantic Financial Group	AFG	Active	
Test Company One	TCOMP1	Active	
Test Company Two	TCOMP2	Active	

Figure 7.1 - Reference Data page (FX Client tab) with Import CSV/Excel button

7.1 Data Categories

Tab	Description
FX Client	Client/company entities
Banks	Banking institutions with SWIFT codes and account management
Counterparties	PJL Group entities (CLSC, PJ, Verite, etc.)
Transaction Types	Buy / Sell
Transfer Types	FX Crypto, FX Local, FX Bank Deal, FX-Intercompany, FX - Corporate Settlement, PDAX WD
Currencies	Fiat, stablecoin, and cryptocurrency codes

7.2 Adding, Editing, Deleting

Click Add New to create items. Click the pencil icon to edit or trash icon to delete (with confirmation). Fields vary by tab: Name/Code for all, SWIFT Code for Banks, Type/Symbol for Currencies.

7.3 Bulk Import - FX Clients

On the FX Client tab, click Import CSV/Excel. Upload a CSV or .xlsx file with columns: name (required), code (required), type (optional: Customer/Vendor). Duplicates (by code) are skipped.

```
name,code,type Acme Trading Ltd,ACME_TR,Customer Pacific Holdings,PAC_H,Vendor
```

7.4 Bank Account Management

The screenshot shows the 'Reference Data' section of the FX Tracker application. The left sidebar contains navigation links: Dashboard, Reference Data (selected), Users, Transactions, Audit Trail, and Reports. The top right shows 'System Admin Admin SA'. The main content area is titled 'Reference Data' with a subtitle 'Manage system reference data' and an 'Add New' button. Below the title are tabs for 'FX Client', 'Banks' (selected), 'Counterparties', 'Transaction Types', 'Transfer Types', and 'Currencies'. The 'Banks' tab displays a table with columns: Name, Code, SWIFT Code, Status, and Actions. The table lists six banks: JP Morgan Chase, Citibank, HSBC, Deutsche Bank, Standard Chartered, and Bank of America. Each bank row has an 'Accounts' button and edit/delete icons. The 'Status' column for all banks shows 'Active'.

Name	Code	SWIFT Code	Status	Actions
JP Morgan Chase	JPMC	CHASUS33	Active	Accounts [edit] [delete]
Citibank	CITI	CITIUS33	Active	Accounts [edit] [delete]
HSBC	HSBC	HSBCGB2L	Active	Accounts [edit] [delete]
Deutsche Bank	DB	DEUTDEFF	Active	Accounts [edit] [delete]
Standard Chartered	SCB	SCBLSGSG	Active	Accounts [edit] [delete]
Bank of America	BAC	BOFAUS3N	Active	Accounts [edit] [delete]

Figure 7.2 - Banks tab with Accounts button per bank

Each bank row has an Accounts button. In the dialog, add accounts with Account Name (required) and Account Number (required). Click Import to bulk import from CSV/Excel with columns: account_number, account_name.

account_number,account_name 001-234-567,USD Operating Account 001-234-568,EUR Settlement Account

7.5 Currencies

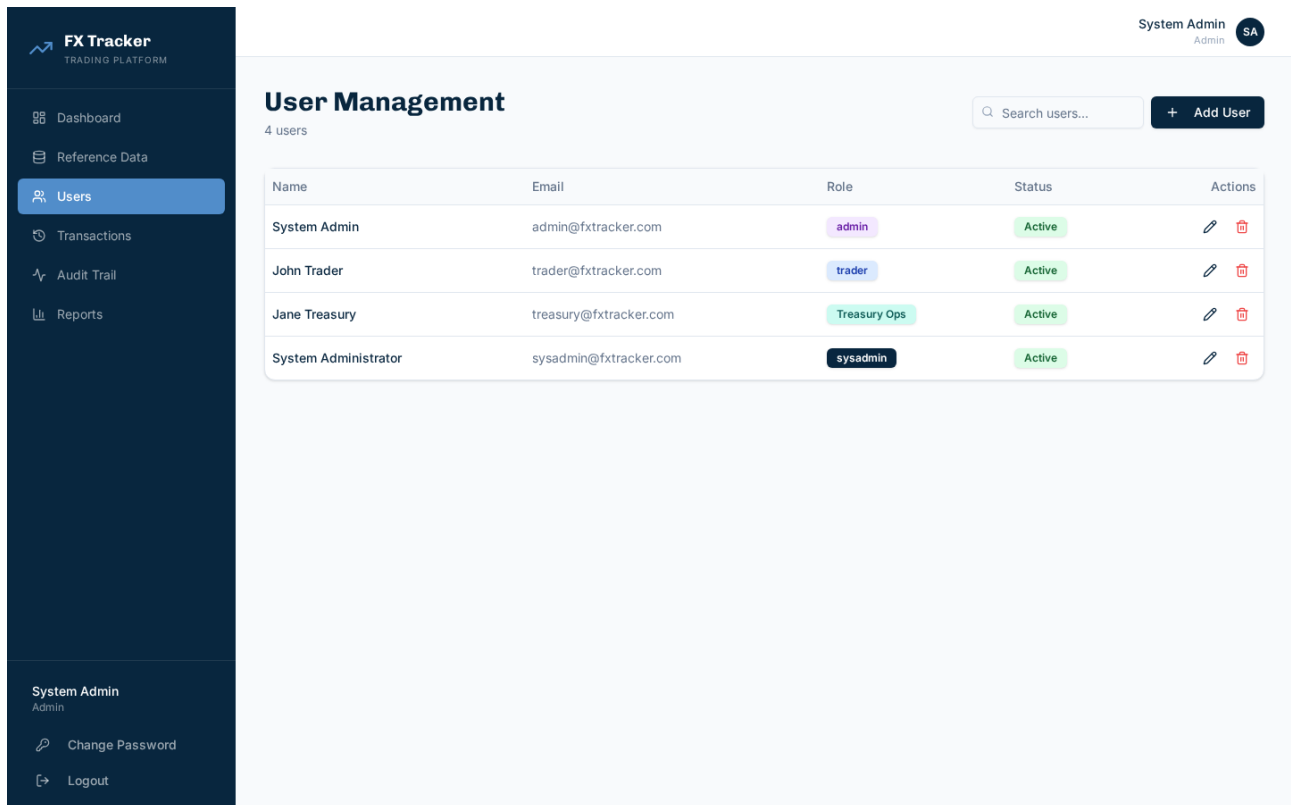

The screenshot shows the 'Reference Data' section of the FX Tracker application, specifically the 'Currencies' tab. The left sidebar and top navigation are identical to the previous screenshot. The 'Currencies' tab is selected, displaying a table with columns: Name, Code, Type, Symbol, Status, and Actions. The table lists various fiat currencies: US Dollar, Euro, British Pound, Japanese Yen, Swiss Franc, Australian Dollar, Canadian Dollar, New Zealand Dollar, Swedish Krona, Norwegian Krone, Danish Krone, Singapore Dollar, and Hong Kong Dollar. Each currency row has a 'Type' (all are 'fiat'), a 'Status' (all are 'Active'), and 'Actions' (edit and delete icons). The 'Symbol' column shows the respective currency symbols: \$, €, £, ¥, CHF, A\$, C\$, NZ\$, kr, kr, kr, S\$, and HK\$.

Name	Code	Type	Symbol	Status	Actions
US Dollar	USD	fiat	\$	Active	[edit] [delete]
Euro	EUR	fiat	€	Active	[edit] [delete]
British Pound	GBP	fiat	£	Active	[edit] [delete]
Japanese Yen	JPY	fiat	¥	Active	[edit] [delete]
Swiss Franc	CHF	fiat	CHF	Active	[edit] [delete]
Australian Dollar	AUD	fiat	A\$	Active	[edit] [delete]
Canadian Dollar	CAD	fiat	C\$	Active	[edit] [delete]
New Zealand Dollar	NZD	fiat	NZ\$	Active	[edit] [delete]
Swedish Krona	SEK	fiat	kr	Active	[edit] [delete]
Norwegian Krone	NOK	fiat	kr	Active	[edit] [delete]
Danish Krone	DKK	fiat	kr	Active	[edit] [delete]
Singapore Dollar	S\$D	fiat	S\$	Active	[edit] [delete]
Hong Kong Dollar	HKD	fiat	HK\$	Active	[edit] [delete]

Figure 7.3 - Currencies tab (fiat, stablecoin, crypto)

Pre-loaded with 31 fiat, 16 stablecoin, and 18 crypto currencies. Each has a type badge and symbol.

8. User Management (Admin)

The screenshot displays the 'User Management' interface of the FX Tracker Trading Platform. The left sidebar contains navigation links: Dashboard, Reference Data, Users (highlighted), Transactions, Audit Trail, and Reports. The top right shows the user 'System Admin' with a role badge 'SA' and 'Admin' status. The main content area is titled 'User Management' and shows '4 users'. A search bar and an 'Add User' button are present. Below is a table listing the users:

Name	Email	Role	Status	Actions
System Admin	admin@fxtracker.com	admin	Active	 
John Trader	trader@fxtracker.com	trader	Active	 
Jane Treasury	treasury@fxtracker.com	Treasury Ops	Active	 
System Administrator	sysadmin@fxtracker.com	sysadmin	Active	 

At the bottom of the sidebar, the 'System Admin' user is listed with options to 'Change Password' and 'Logout'.

Figure 8.1 - User Management page

View all system users with name, email, role badge, and status. Use the search bar to find users. Click Add User to create new accounts (Trader, Treasury, or Admin role). Edit or delete users via the action icons.

Figure 10.1 - Audit Trail with timestamped actions

Records every significant action: deal creation/confirmation/return/cancellation, proof uploads, user management, reference data changes (including bulk imports), and password changes.

Column	Description
Timestamp	Date and time of the action
Action	Type (Deal Created, Proof Uploaded, companies_imported, etc.)
Entity	What was affected (deal, user, bank_account, company)
Reference	Reference number or identifier
User	Who performed the action (name and role)
Details	Human-readable description

Click Filters to filter by action type, entity type, user name, or date range.

11. Reports

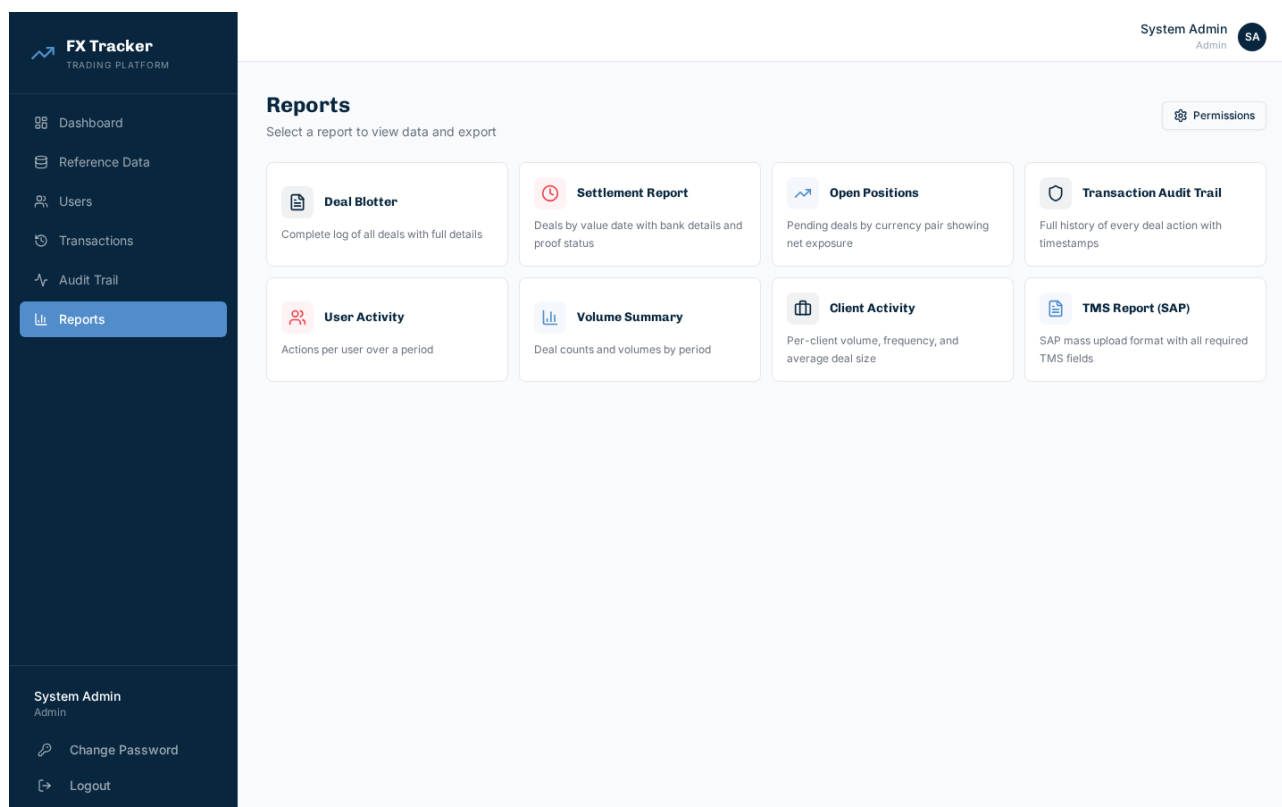

Figure 11.1 - Reports selection page

11.1 Available Reports

Report	Description	Key Filters
Deal Blotter	Complete deal log with full details	Date, status, client, currency
Settlement	Deals by value date with bank details and proofs	Date, from/to bank
Open Positions	Pending deals by pair showing net exposure	None (current snapshot)
Audit Trail	Full action history with timestamps	Date, user name
User Activity	Actions per user over a period	Date range
Volume Summary	Deal counts/volumes by day/week/month	Date range, grouping
Client Activity	Per-client volume, frequency, avg deal size	Date range, client
TMS Report (SAP)	21-column SAP mass upload format	Date range

11.2 Exporting

Each report supports CSV and PDF exports. PDF documents are branded with company colors (navy headers, red accents, blue subheadings).

11.3 Report Permissions

Admins can control which roles access each report via the Permissions button. Toggle access for Trader, Treasury, and Admin roles per report.

11.4 FX-Intercompany Handling

Settlement and TMS reports generate dual lines for FX-Intercompany deals: .1 suffix for Sell side, .2 suffix for Buy side.

12. System Administration

The System page is only accessible to users with the sysadmin role.

12.1 Database Statistics

View record counts for all collections (deals, users, audit logs, reference data, etc.).

12.2 Data Export

Export any collection as CSV or JSON: Deals, Audit Logs, Users, Companies, Banks, Bank Accounts, Currencies, Transaction Types, Transfer Types, Counterparties.

12.3 Database Reset

Perform a controlled reset: Cleared = Deals, audit logs, counters, report permissions. Retained = Users, reference data, bank accounts. Type 'RESET DATABASE' to confirm.

WARNING: This action is irreversible. All deal and audit data will be permanently deleted.

13. Appendix: Transfer Types & Crypto Networks

Transfer Types Reference

Transfer Type	Code	Counterparty	Destination	Notes
FX Crypto Conversion	FX_CRYPTO	No	Yes	Standard crypto conversion
FX Local	FX_LOCAL	Yes	Yes	Shows Counterparty instead of Company
PDAX Withdrawal	PDAX_WD	No	Yes	PDAX-specific withdrawal
FX Bank Deal	FX_BANK	No	Hidden	Destination not applicable
FX-Intercompany	FX_INTERCO	Yes	Yes	Dual Ours sections (Selling + Buying)
FX - Corporate Settlement	FX_CORP_SETTLE	Yes	Yes	Behaves like FX Local

Crypto Networks

When any account section is set to Crypto mode, a Network dropdown is required:

Network	Blockchain
SOLANA	Solana blockchain
ETHEREUM	Ethereum blockchain (including ERC-20 tokens)
TRON	TRON blockchain (including TRC-20 tokens)

Status Workflow

Created -> Pending -> Confirmed (by Treasury) OR Returned (by Treasury) OR Cancelled (by Trader). Returned deals can be edited and resubmitted back to Pending.
